<p>I remember when you came to this world! first dad called and said you were a girl, then he called back and said you were a girl! 10 minutes later he called back and said we have twins girl! then they told him they are twin boys! dad said how we gonna raise all these kids! I know you have been so sick for 3 yrs. fighting this bad disease. I'm so sorry you had to leave us so young of age! but we will be together again..I love till we meet again..Your sister, Barb<3
